Twisted Wrench Specializes in:

MAY 2015

Tune up for summer!

Spring is certainly the time of year to tune your car up for the summer. We here at Twisted Wrench are tuning things up ourselves with the addition of some great new staff added during 2014.

Twisted Wrench would like to introduce some amazing new additions to our company. We've recently hired 3 new technicians and a service writer to our staff. These four men have years of automotive experience.

Randy Weaver our new service writer brings over 30 years of automotive experience to Twisted Wrench. Randy's main goal is to serve our customer's needs. Randy goes the extra mile to fix our customers vehicle with the best parts at a fair price. Randy is able to field calls, explain issues, email estimates, and look under the hood of your vehicle with one of our trustworthy technicians.

Chris Wallace has 16 years' experience repairing cars and has a loyal customer base all by himself. Chris is an advocate for his customers and that's the #1 reason he's at Twisted Wrench. Chris loves repairing cars and is humbled by the trust customers put in him to work on their car. Chris strives every day to keep his customers faith in him. When Chris isn't at Twisted Wrench he stays active by competing in different sporting events.
